Experience at your service

Incentives and corporate events

You would like to organise an end-of-year party, your business results are beyond your expectations, you want to make your team more dynamic or consolidate their team spirit - MeeTincS, the creator of events, has the solution.

MeeTincS does not offer you a ready-made package - every solution is tailor-made. MeeTincS will design a programme for you which takes account of your wishes, your requirements, the profiles of those attending and your budget. We listen to you to enable us to meet your expectations.

Imagination and looking for that something « different » is our motto. From hunting... to “Bouchon” bistro dining or a “Guinguette” evening with music and dancing, everything is possible, everything can be realised. We are not lacking in ideas and in order to meet the ever growing demand, MeeTincS has just acquired the biggest radio-controlled Formula 1 circuit.
